9.0	<p>Housing Needs. Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.</p> <p>City of McAllen Community Development Block Grant Action Plan FY 2014-2015</p> <p>Highlights identifying obstacles to meeting underserved families:</p> <ul style="list-style-type: none"> • McAllen is located in one of the fastest growing regions in the country, and its population threatens to outstrip the existing capacity of local housing and community development organizations. With ongoing cutbacks to public services, individuals and families will be hard pressed to meet their needs for affordable housing and other community development assistance. • McAllen percentage of households living in poverty was 26.7%; this figure is still higher than the State (17.4), based on 2008-2012 Census assessment. • As a result of the City's lower income levels, few extremely low and low-income residents can afford a median priced home, or the rent for a market rate two-bedroom apartment. A family of four earning 50 percent of the area median income could only afford to pay \$627 a month for an apartment. However, the fair market rent for a two-bedroom apartment in McAllen-Edinburg-Mission MSA was \$655 a month for 2014 (HUDuser.gov) • Much of the region continues to struggle with near double digit unemployment. The April 18, 2014 data for non-seasonal adjusted unemployment rate for the McAllen-Edinburg-Mission MSA was 9.9% (Bureau of Labor Statistics) • A major contributor to the region's high unemployment and poverty rates is its low educational attainment levels. According to the 2008-2012 Census assessment, 73.9 percent of residents of McAllen have at least a high school diploma, compared to 80.8 % statewide. However, the percent of McAllen's residents who have a bachelor's degree or higher are comparable with the state level, 27% and 26% respectively. <p>In order to overcome the identified obstacles, the City of McAllen has designated social services, housing and infrastructure, public facilities and economic developments activities as "High" priorities. As such HUD-awarded funds will be utilized to further these types of activities for the benefit of low-and moderate income persons.</p>
